

OCCA West Riding Forum "Aspects of Rheology – Formulation & Application"

28th October 2015

PPG (formerly SigmaKalon), Bradford Road entrance (WF17 9NS), Birstall, Batley, West Yorkshire

West Riding OCCA has selected and combined a forum of companies that are keen to help you understand "Aspects of Rheology – Formulation & Application". They will help dispel some of the mysteries, give 'sound advice' and offer 'technical support'.

This forum has something for everybody who has an interest in rheology, from large producers to small industrial

paints manufacturers and the companies that support them.

This concentrated form of lecture programme will offer many advantages to the members, non-members and companies who have come to expect good support from OCCA.

Come and join West Riding OCCA for a relaxed, friendly and informative afternoon!

Timings

12 noon - 12.30 - Check-in and safety induction at security gate (WF17 9NS)
Escorted transfer to the Training and Visitor Centre, 10-15 minutes' walk, if the weather is fine.

13.00 Programme start

- Professor Jim Guthrie, Leeds University (Keynote speaker): "The Importance of Rheology in Coating Formulation"
- Steve Goodyer, Anton Parr Ltd: "Instrumentation and Measurement of Rheology"
- Alan Guy, Safinah Ltd: "The Aspects of Rheology to Consider for Different Application Methods"
- Harold Faber, Faber and Vanderende: "New Rheological Additives for Water-based Coatings Compared to Existing Additives"
- Udo Schonoff, Elementis: "Novel High Efficiency NISAT Thickeners"

Speakers from Evonik and Borica will also give presentations (details to be confirmed).

17.45 Programme finish and buffet

Prices

Earlybird deals are available until the end of July.

Members (OCCA): £26

Student/Retired Members: Free

Non-members: £128

There will, as usual, be a non-OCCA member offer of free membership.

Table-top places for exhibitors are available.

Members registering will need their membership number, which can be found on the address label of their copy of Surface Coatings International.

Please find the link to webpage for registration details and further information, posted as we receive it:
